SKILLS

- **Languages:** JavaScript, C/C++, Python
- **Frameworks & Libraries:** NodeJS, NIST CSF, CIS Controls, Scapy
- **Tools & Platforms:** MySQL, Shodan, Nmap, OpenVAS, Hydra, Wireshark
- **Soft Skills:** Leadership, Time Management, Adaptability, Quick Learner

PROJECTS

Network Traffic Analyzer - Monitoring & Analysis Tool | GitHub Jun' 25 – Aug' 25

- Developed and optimized a Python-powered packet analysis tool that captures and inspects live network flows, applying protocol-aware filters to enhance traffic visibility.
- Programmed and executed an interactive monitoring dashboard that visualizes live network traffic, identifies suspicious activity and displays protocol distributions using a lightweight Flask backend and dynamic HTML templates.
- Integrated MySQL-backed logging modules that store, index, and organize captured packet metadata to enable historical traffic analysis, detect anomalies, and support forensic security investigations.

Tech Stack: Python, Scapy, Flask, MySQL, HTML

File System Integrity Checker | GitHub Feb' 25 – Apr' 25

- Designed and implemented a file system integrity checker to detect unauthorized modifications using cryptographic hash comparison.
- Automated periodic scanning of directories to identify altered, missing, or newly added files and generate detailed integrity reports.
- Enhanced system security by enabling real-time alerts and maintaining historical logs for forensic analysis and audit compliance.

Tech Stack: Python, Linux, SQLite, HTML

TRAINING

Cipher Schools – Data Structure and Algorithm using Java Programming | Certificate Jun' 25 – Jul' 25

- Gained hands-on expertise in Java development, applying Core Java, JDBC, and RDBMS fundamentals to build structured and scalable application components.
- Designed and optimized algorithms for sorting, searching, recursion, dynamic programming, and greedy techniques.
- Improved time and space efficiency by applying Big-O analysis and algorithm optimization techniques

Tech stack: DSA, STL, Git, JavaScript, Modular Program Design

CERTIFICATES

- The Bits and Bytes of Computer Networking – Coursera | [Link](#) Nov' 24
- TCP/IP Advanced Topics – Coursera | [Link](#) Sep' 24
- Computer Communications – Coursera | [Link](#) Nov' 23

ACHIEVEMENTS

- Solved 200+ labs on **TryHackMe** and **Hack The Box**, strengthening hands-on skills. Oct' 25
- Ranked in the top 5% on **TryHackMe** and **Hack The Box** through consistent performance. Sep' 25

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 5.82 Aug' 23 – Present

Oxford PU College Bangalore, Karnataka
Intermediate; Percentage: 79.6% Jun' 22 – May' 23

Poorna Prajna Education Centre Bangalore, Karnataka
Matriculation; Percentage: 79% Jun' 20 – Mar' 21
